

(1) default: xx\_gentim2d\_startdate = startDate

(2) xx\_gentim2d\_startdate = baseTime+nIter0

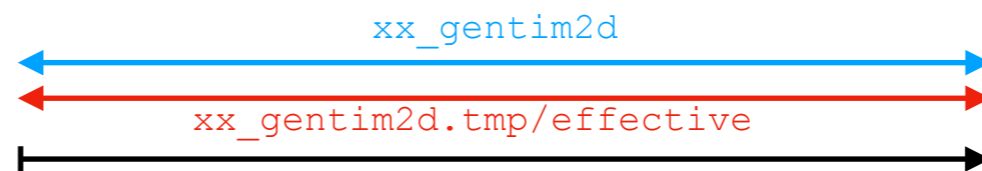

(2a) new startTime at nIter0\* > nIter0

(3) alternative: new startDate\_1/2 at old baseTime+nIter0 = baseTime\*.

Note that this requires renaming pickup files and/or specifying namelist parameter "pickupSuff" in data

baseTime\* + nIter0=0
